**LIGHT  
DISINFECTION  
SOLUTIONS**

**KLAPSOLUTIONS.COM** 

**HEALTH-PROTECTION SOLUTIONS WITH HIGH ADDED VALUE**

**Kills 99,9%  
of viruses & bacteria**

**Disinfects 1300 sq ft  
in 60 minutes**

**Air disinfection in  
the presence of  
human beings**

**Designed and made  
in France**

## **A technology that disinfects the air at 99,9% through UV-C**

Coupled with an LED lighting system, this Light Of Disinfection technology uses UV-C to disinfect the air in a closed environment.

Under the effect of UV-C, the DNA of these viruses is destroyed and viruses and bacteria are eliminated. Thus disinfected, the air then circulates in the room, guaranteeing a healthy and safe environment.

# Common viruses all destroyed by the LOD

COVID-2019

BRONCHIOLITIS

FLUE

GASTRO-ENTERITIS

## Our solutions adapted to each sector

Businesses

Pharmacies

Stores

Nursing Homes

Healthcare Professionals

Waiting Rooms

Gyms

Hotels and Restaurants

Personal Use

# Our solutions

## ORIGIN'AIR Fly Suspension

Disinfects 15 to 60 sq.m  
in 60 minutes

## EXTRAODIN'AIR

Disinfects 15 sq.m  
in 60 minutes

DISINFECTS AIR WITH LIGHT

>klap

Disinfects 129l sq.ft  
in 60 minutes **in the  
presence of human beings**

Proven effectiveness, tested in a certified laboratory  
Made in France

## TECHNICAL SPECIFICATIONS

- Dual technology technical lighting
  - LED lighting and disinfection LOD (UV-C) suspension
  - Body in 58x78x108mm extruded aluminium
  - Suspension mounting 2m hangers
  - Direct lighting, LED diffuser, opal PMMA
  - Double LED strip, IRC90 3000K or 400K
  - Separate switches: lighting / disinfection
  - Remote 24Vdc power supplies
- 
- Support: suspension
  - Technology: LED / LOD (UV-C)
  - Type of connection: Requires installation
  - Length: 1000mm or 2000mm
  - LED Power: 30W
  - LED lighting color: 2700W / 3000W / 4000W
  - Beam: 120°
  - IRC: >90

## PRODUCT BENEFITS

- Proven effectiveness, tested in a certified laboratory
- Eliminates 99.9% of viruses & bacteria
- Easy to use: plug in > disinfect
- No filter to replace
- No maintenance
- Quiet Operation
- Air disinfection in human presence

**LOD'AIR** disinfects the air with light in 1 hour  
in a room of 13 to 120 sq.m

**LOD'AIR** is a device that complements barrier  
measures since it disinfects the air and does not  
dispense with current health recommendations.
