**LIGHT
DISINFECTION
SOLUTIONS**

KLAPSOLUTIONS.COM 

HEALTH-PROTECTION SOLUTIONS WITH HIGH ADDED VALUE

**Kills 99,9%
of viruses & bacteria**

**Disinfects 1300 sq ft
in 60 minutes**

**Air disinfection in
the presence of
human beings**

**Designed and made
in France**

A technology that disinfects the air at 99,9% through UV-C

Coupled with an LED lighting system, this Light Of Disinfection technology uses UV-C to disinfect the air in a closed environment.

Under the effect of UV-C, the DNA of these viruses is destroyed and viruses and bacteria are eliminated. Thus disinfected, the air then circulates in the room, guaranteeing a healthy and safe environment.

Common viruses all destroyed by the LOD

COVID-2019

BRONCHIOLITIS

FLUE

GASTRO-ENTERITIS

Our solutions adapted to each sector

Businesses

Pharmacies

Stores

Nursing Homes

Healthcare Professionals

Waiting Rooms

Gyms

Hotels and Restaurants

Personal Use

Our solutions

ORIGIN'AIR **Fly Suspension**

Disinfects 15 to 60 sq.m
in 60 minutes

EXTRAODIN'AIR

Disinfects 15 sq.m
in 60 minutes

LAMPAD'AIR

Disinfects 15 to 60 sq.m
in 60 minutes

SUP'AIR

Disinfects 15 to 30 sq.m
in 60 minutes

7'AIR

Disinfects 7 cubic
metre in 60 minutes

Disinfects 129l sq.ft
in 60 minutes **in the
presence of human beings**

Proven effectiveness, tested in a certified laboratory
Made in France

TECHNICAL SPECIFICATIONS

- Dual technology technical lighting
 - LED lighting and disinfection LOD (UV-C) suspension
 - Body in 58x78x108mm extruded aluminium
 - Suspension mounting 2m hangers
 - Direct lighting, LED diffuser, opal PMMA
 - Double LED strip, IRC90 3000K or 400K
 - Separate switches: lighting / disinfection
 - Remote 24Vdc power supplies
-
- Support: suspension
 - Technology: LED / LOD (UV-C)
 - Type of connection: Requires installation
 - Length: 1000mm or 2000mm
 - LED Power: 30W
 - LED lighting color: 2700W / 3000W / 4000W
 - Beam: 120°
 - IRC: >90

PRODUCT BENEFITS

- Proven effectiveness, tested in a certified laboratory
- Eliminates 99.9% of viruses & bacteria
- Easy to use: plug in > disinfect
- No filter to replace
- No maintenance
- Quiet Operation
- Air disinfection in human presence

LOD'AIR disinfects the air with light in 1 hour
in a room of 13 to 120 sq.m

LOD'AIR is a device that complements barrier
measures since it disinfects the air and does not
dispense with current health recommendations.
